Email:adhikeysavachandragiri@gmail.com
Mobile: +91 9347756802

SKILLS

Languages :	C++, Java , Python , JavaScript, C, PHP.
Frameworks:	HTML5 and CSS3, Tailwind, jQuery, React JS, Node JS, Express JS.
Tools/Platforms:	MySQL, PostgreSQL, MongoDB, Git, GitHub, BotPress.
Soft Skills:	Problem-Solving, Adaptability, Quick Learner, Leadership, Data Structures and Algorithms.

PROJECTS

MediTrack Pro – Healthcare Management System MERN, Redux Toolkit, Socket.io, PostgreSQL	Jan’ 2026
- Built a full-stack healthcare platform enabling real-time vitals monitoring, secure medical records management, and seamless doctor–patient communication. - Implemented real-time data streaming and alert systems using Socket.io for heart rate and blood pressure tracking; designed role-based access control with secure authentication for Admin, Doctor, and Patient workflows. - Developed secure file handling using Node.js streams and compression; integrated live chat functionality and optimized hybrid database architecture with MongoDB and PostgreSQL for efficient data management.	
Public Transportation Route Planner C++, Dijkstra’s Algorithm, Graph Data Structures, HTML	Oct’ 2025
- Implemented Dijkstra’s algorithm to compute optimal routes based on travel time and cost across bus, train, and metro networks. - Designed a scalable data ingestion pipeline to parse, validate, and normalize large CSV transport datasets, handling inconsistent formats and edge cases. - Optimized routing performance using priority queues and hash maps for real-time computation over large graphs; ensured reliability through modular design and extensive input validation. - Built an interactive CLI enabling users to query routes with detailed outputs including total time and fare.	
Academic Progress Tracker (Multi-Role Access) PHP, MySQL , jQuery, Tailwind.	May’ 2025
- Implemented secure authentication using PHP sessions and hashed passwords with dedicated dashboards and restricted permissions for Admin, Teacher, Parent, and Student roles. - Developed a complete user management module with CRUD operations across academic entities. - Designed a normalized MySQL schema with structured relationships for users, classes, subjects, grades, and attendance records. - Developed interactive and responsive dashboards featuring academic performance and attendance .	

CERTIFICATES

SEBI Investment Awareness Test NISM	Sept’2025
Computational Theory: Language Principle & Finite Automata Theory Infosys	Aug’ 2025
Successfully completed the proctored exam with certificate by IIT/ IISc. NPTEL	Apr’ 2025

EXTRA-CURRICULAR ACTIVITIES

Infosys - Build Generative AI Apps and Solutions with No-Code Tools Infosys	Aug’ 2025
Infosys - ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM Infosys	Aug’ 2025
Participated in Code-A-Haunt Hackathon, showcasing skills in problem-solving Code-A-Haunt	Feb’ 2024

EDUCATION

Lovely Professional University	Punjab, India
Bachelor of Technology	Aug’ 23 – Present
Computer Science and Engineering; CGPA: 6.0	
Sri Siddhartha Junior College	Andhra Pradesh, India
Intermediate;	July’ 2020 – April’ 2023
PCM; Percentage: 78.9%	
Vasishta school (ICSE)	Andhra Pradesh, India
Matriculation;	June’ 2019 – July’ 2020
Percentage: 90.60%
